Jermaine Peguese

Jermaine Peguese is The Chairman of AI, and the President and CEO of Pathworth Consulting and Solutions.

He taught himself AI, starting in November 2022, sharpened it through the ChatGPT and Generative AI for Management Consultants program, and built his own AI workforce without writing a line of code. He runs his company on it every day.

Before AI, he spent twenty years building things that put people in position to win: the largest sit-down dinner in the world, a summer program that puts young people to work, a small business program where one woman made over \$10,000 from a single idea, and an entrepreneurship community he grew from 19 members to 125+.

Now he brings both worlds into one room. Strategy, instincts, logic, and heart.

Whatever you've got going on, run it by Jermaine.
